

FROM THE PRINCIPAL

COVID

Confirmation that, as from tomorrow, face coverings are not required to be worn in communal areas or classrooms. Of course, if students still wish to wear one then they can do so.

We expect all other current measures (i.e. suspension of assemblies and large gatherings) to remain in place until at least half term, by which point the impact of the recent loosening of restrictions will be clearer and updated guidance may have been issued at a national and local level. Of course, I will notify you as soon as any decisions about further changes to the measures in place at the College are taken.

I do expect the guidance to continue to allow schools, in consultation with Public Health, to reintroduce any measures that they feel are necessary to deal with local outbreaks and therefore I would ask that face coverings are kept available for the possibility that they might be needed again in the future, if the situation requires it. Needless to say, we will continue to monitor the absence data for staff and students closely.

Year 7 Parents' Evening on Thursday 3 February

A reminder that this event will be run remotely. I am sure all parents will understand the need for this decision given the national and Surrey situation in terms of the Omicron variant.

CONTINUED ON PAGE 3

DRAMA STUDENTS WATCH THEATRE 'MAGIC'

Our A Level Drama students were delighted to return to Yvonne Arnaud on Tuesday evening to watch Mischief Theatre's production of Magic Goes Wrong. The show, co-produced by Penn & Teller, takes a comedic approach to a charity telethon, raising money for the Disasters in Magic Charity.

Students were treated to an evening of magic, mystery and disaster. The performance was in keeping with the Mischief Theatre style, which was highlighted by the incredible lighting and set design. Magic Goes Wrong will be performing until the end of January before continuing the UK tour and is a must see if you have the opportunity to go.

As soon as we arrived, students and staff spotted one of the co-founders of Mischief Theatre, Jonathon Sayer. After the show, Jonathon very kindly gave up some time to meet with the students for a chat and photograph and reminisced about his time at LAMDA. He was also so pleased to hear that the work Mischief Theatre have created is being shared to inspire the next generation of theatre performers.

Thank you to Mrs Valu, Miss Hardicre, Miss Angell, Miss Cousins and Miss Ingram for coming along to the theatre, and thank you to Collingwood students who, yet again, did a fantastic job of representing Collingwood College. And finally, a huge thank you to Jonathon Sayer of Mischief Theatre for chatting to our students and signing Mrs Valu's programme... which of course will be on display in Barossa Studio!

Mr Green - Drama Department

DATES FOR YOUR DIARY - DON'T MISS OUT!

Thursday 3 February:	Year 7 Parents' Evening (Virtual), 4.15pm until 7.30pm
Sunday 6 February:	Years 10 and 11 Silver DofE Expedition Training (Sixth Form Centre)
Thursday 10 February:	Year 8 Options Evening (Virtual) Year 7 Run for Resources
Friday 11 February:	END OF TERM
Monday 21 February:	INSET Day
Tuesday 22 February:	Start of Term for Students Year 8 Boys HPV Immunisations, 8.30am until 1.00pm, Kingston Theatre
Thursday 24 February:	Year 9 Parents' Evening (Virtual), 4.15pm until 7.30pm

GIRLS VICTORIOUS IN RUGBY TOURNAMENT

On Wednesday 19 January, girls from Years 7 and 9 participated in a rugby tournament at Camberley RFC, organised by Collingwood. The other schools that took part in the tournament were Winston Churchill, Weydon and Heath End.

With three great rugby clubs around this area of Surrey, you can see how girls' rugby has taken off with the standard of play so much higher than in previous years. At the end of the tournament Collingwood pipped Heath End to the post by scoring two more tries over the course of the games.

Congratulations to those that took part. The next tournament is at Chobham RFC on Wednesday 23 February for Years 7-10 U13 and U15. Thanks to Camberley RFC for allowing us to use their flood lights.

Team: Megan Turner, Zara Clark, Leah Lloyd, Niamh Appleton, Freya Saunders, Eve Holden and Elissa Quarthey

Miss Robinson - PE Department

Year 9 Options Evening

My apologies to those parents/carers who were unable to access the Options video on Thursday. This was due to a technical issue that we were unaware of until the following morning. If you haven't done so already, please do watch the video with your child so that you can support them with this important process.

A plea to those parents who use their cars to transport their children to College

Please can I ask all parents who drive their children to College to be particularly careful around the front of Barossa and Kingston buildings at the start and end of each day. This week we have had a number of cars travelling over the speed limit and parking inconsiderately towards our local neighbours.

I am sure we would all agree that the safety of our students is paramount and therefore I would respectfully ask drivers to be particularly careful around our site at key drop-off and pick-up times.

My thanks in advance for your support in this matter.

Mr Tanner - Principal

ON BEHALF OF SURREY AND BORDERS PARTNERSHIP - OUT OF HOURS SUPPORT FOR PARENTS/CARERS

Families have told us they would like access to out of hours support at the time they are struggling with behaviour / difficulties which could be related to neurodevelopmental need, such as autism or ADHD.

An out-of-hours phone line now provides advice to parents and carers and runs from 5pm until 11pm, seven days a week, 365 days a year. More details here:

<https://www.mindworks-surrey.org/our-services/neurodevelopmental-services/out-hours-advice-line>

YELLENA JAMES INSPIRES YEAR 9 ART STUDENTS

Year 9 GCSE Art students have been inspired by [Yellena James'](#) underwater paintings to create these 3-D clay tiles.

After drying they will go into the kiln for firing and then will be painted in similar colours.

More photos to follow soon!

Mrs Goodall - Head of Art Department

YEAR 8 OUTSTANDING LINGUISTS

Our sincere apologies to Roslyn McCartney and Riya Mustafa in 8D, as well as Alfie Diggins-Barnes and Riley Castle-Merriman in 8A who were omitted from last week's article.

Congratulations for being nominated by your French teachers!

Ms Baudain - Head of Languages Department

DEBATING NEWS ...

On Monday 24 January our senior debaters competed in the second round of a major national debating competition (The English Speaking Union Mace).

I am pleased to let you know that against stiff competition we have secured a very convincing win and will now progress to the regional finals.

Congratulations to Shree Singh, Ellie Bean and Daniel Sawyer.

In other news, we have four teams competing this Thursday in the Oxford Union regional rounds and I am sure everyone wishes them well.

Mr Baird - English Department

Nature and Environment: Client Interview & Questions

My Client -

Name: Karen Hughes

Age: 51

Hobbies/Interests: Travel, Yoga, Cultural Art

Need: Karen works from home, she is looking to add some new furniture to her home, she is looking for a piece that can add some emphasis to the room it will be placed in, as she feels that her current rooms lack character and need something new to lift the atmosphere within the space she lives in. Karen wants a piece that will compliment her current furniture items she owns, and will not disrupt the balance of styles or designs currently visible, she is keen on having a piece that adds something new, creative and fun to her household.

I asked my Client the following Questions -

Do you have a favourite Designer or Design Period I could use for Inspiration? :

Karen mentioned the Designers:

- Hans Wegner, "I like the simplicity and very natural flowing structure of his pieces."
- Marcel Breuer Wassily, "Again, I like the simplicity in the designs he has but I also appreciate the iconic aspect of what he created."
- Pili Wu, "I love his work for the modern, simple and bright displays of domestic cultural furniture and pieces."

Karen mentioned the following Design Periods:

- Bauhaus, "I like the simple and modern appeal of Bauhaus designs, as well as the use of bright primary colours."
- 19th Century Qing Dynasty, "I own many pieces from this design period, I love the smoothness and simplicity in the structure of the pieces and the curvature within the construct, as well as the natural forms sometimes included or connoted in them such as clouds, petals and plant-like structures."

How much would you spend if you were buying a piece specific to your liking or from a favoured design/designer? :

"If it was a designer Chair of some kind maybe at most £2,000, but it really depends on the worth and value of the product along with how much I like it. For a table perhaps at most £5,000, and in terms of shelving, I don't really buy lots of shelving units, probably £500. Of course this would vary depending on how I feel personally towards the piece and how I would evaluate its worth."

What colour pallet interests you the most? :

"I like a red piece of furniture possibly blue. Colour's that would compliment the natural wood tones of the home, I like pieces that are solid colours, specifically primary, but other secondary or tertiary I like as more accents or details, nothing too "out-there"."

What would you store or use the product for? :

"Coffee tables: use it for home décor pieces as well as magazines or books. Cabinets or visible storage would hold maybe antiques."

What do you like about the pieces you currently have? :

"I have multiple pieces that are similar to the Qing Dynasty period, and I like that they are quite simple and the line and structure is smooth and calming. I also tend to like and appreciate the natural elements more, no print or added embellishment."

Interests -

- Travel, Cultural design
- Yoga, natural/unstressed
- Indonesian, Cirebon cloud pattern and art

Summary:

- Design should follow the following movements: 19th Century Qing Dynasty, Bauhaus and or include the Indonesian Cirebon forms.
- Product should be very refined and exclusive.
- Cabinets and storage is needed more than other furnishings.

WHY LANGUAGES ARE A GOOD GCSE CHOICE ...

As students are beginning to choose their GCSE Options, I would like to remind us all how useful it is to have language skills and how beneficial it is to have a language qualification. When I interviewed staff about how they have used their language skills in their personal and working lives, this is what they told me:

I have always loved words and therefore languages too. Mum says I was a compulsive mimic as a child and was fascinated by the sound of French people talking when we visited France when I was a toddler (and a little embarrassed by me copying them).

At school I studied French and German to O Level and at 16 my choice was between languages and sciences for A Levels. I chose sciences but loved Biology most, not least because of the brilliant words that often have their history in ancient languages such as Latin and Greek, and have tried to keep up an interest in languages, albeit not especially successfully.

At university I continued to do some evening classes in French to keep up and extend my vocabulary. When I was a post-graduate student and worked in industry I worked with people from Germany, France and Spain so was able to add a few more words and phrases that way.

When we visit non-anglophone countries on holidays, I always try to learn a few phrases to try out and if in France I like to at least try to communicate in French. My accent must have got worse since I was a child though as I find it rather annoying when people reply in English!

In the classroom, I try to bring an appreciation of languages to help my classes with all the words students need to learn - did you know that chlorophyll, chloroplasts, chlorosis and chlorine are all derived from the Greek word for green?

We can remember the difference between the afferent and efferent blood vessels at A Level by recalling that 'a' is the French for 'to'. Afferent vessels carry blood towards a structure and efferent carry the blood away. Meiosis, the process that produces sperm and egg cells actually contains the word 'ei', which means 'egg' in German!!!

Dr Adams - Head of Science Department

You never know where life may take you.

Canada is a dual language country, with both English and French being the two official languages. In secondary school it was mandatory that we took French in Grade 8 and 9 like so many of my peers I chose not to continue with languages. Little did I know where my life would take me.

After college I chose to come to the UK (it was a safe environment because they spoke English). A few years later I applied for a job working on cruise ships. I was away at sea for six months at a time over a period of 4 years. I got to see and visit so many places including the Caribbean, North America, Central America, South America, the South Pacific, New Zealand and Australia, and parts of Europe. I even spent six weeks in Northern Italy preparing a cruise ship for its maiden voyage to New York. A fantastic experience but what I discovered is my perception in school that I wouldn't ever need a second language left me at a disadvantage when travelling. It was difficult to communicate in some of these countries. For example, when we visited some of the villages in Brazil as we travelled up the Amazon to Manaus. The Brazilians did not speak English and we could not speak their language (which was Portuguese). Many of the Crew that I worked with were from Italy, Mexico and Portugal and they all spoke their mother tongue and English and found it so much easier when we were in some of these countries as they could understand what the local people were saying and communicate back.

I instantly regretted my decision to not progress with languages. It has also impacted me in applying for roles as an HR professional in international roles as you need to be fluent in both English and another language. I now strongly encourage young people that having a second language is important as you just never know where your life will take you as an adult.

Mrs Evans - HR Department

CONGRATULATIONS TO OUR DOFE AWARDEES

Congratulations to all students who managed to complete their DofE Awards over the past year or two! This has been a particularly challenging time to be trying to complete the DofE Award with multiple changes to expedition plans last year that students (and parents!) had to try and keep on top of. Clubs and activities that students would usually have attended were often not running when COVID-19 restrictions were in place; therefore many of these students had to find quite innovative ways to continue working towards the Volunteering, Physical and Skill sections of their DofE Awards. Some had to conduct music lessons and dance lessons over Zoom calls whilst others had to track their fitness with a fitness tracker device to send their evidence to an assessor who was monitoring their progress!

We are so very sorry we have been unable to hold a special Celebration of Achievement event for these students this year due to current COVID-19 restrictions, but wanted to share the success and achievement of each and every individual listed here and remind them all to be incredibly proud of what they have achieved. These individuals have shown real commitment, motivation and resilience to have coped with the demands of the Award on top of all other challenges they have also been faced with. We hope the experience of being involved with the DofE Award has also given them some life-long memories to cherish too. All students listed below have been awarded their DofE Certificate of Achievement and their DofE pin badge. We look forward to welcoming many of these students onto the next level of their DofE Award journey too. A very big 'well done' and 'congratulations' from all of us on the Collingwood College DofE Team.

Mrs Magness - DofE Co-ordinator

LIBRARY NEWSLETTER

Quote of the week: "The only thing that you absolutely have to know, is the location of the library." - Albert Einstein

AUTHOR OF THE WEEK

Adeline Yen Mah

Adeline is a Chinese-American author and physician. She was born in Tianjin, China and then studied medicine in London and now works in a practice in California. She is best known for 'Falling Leaves' and 'Chinese Cinderella'.

FAMOUS BIRTHDAYS

Edgar Allan Poe - American Writer and Poet - 19th January 1809

WHY IS READING IMPORTANT?

Reading helps expand the mind. It promotes ideas and helps keep our minds young, healthy and sharp as well as helping to prevent Alzheimer's disease. Reading also helps develop imagination and new ways of thinking.

BOOK OR SERIES OF THE WEEK (suitable for all years)

Chinese Cinderella by Adeline Yen Mah

The non-fiction story of how Adeline grew up in China. After her mother died giving birth to her, the family considered her bad luck and made her feel unwanted. This is the story of her struggle for acceptance and overcoming the odds to prove her worth.

NON-FICTION SECTION: Tudors ref

n942.05

Through our selection of books, you will be transported back to Tudor times and be able to explore the royal house history and the influences they had.

READING CLUB

This week we were honoured to have Miss Tidley visit our club. Miss Tidley is an accomplished and passionate reader. She showed the students her elaborate reading journal and inspired us to start our very own reading journal.

CLASSIC TITLE OF THE WEEK

The Time Machine by H.G. Wells

Follow the story of a Victorian scientist who propels himself into the future where at first it seems peaceful and beautiful but then discovers two races, the Eloi and the Morlocks. To find his missing time machine he must search the tunnels beneath paradise and to get back to his era.

READING NEWS

LGBTQIA+

Celebrations for the Chinese New Year are coming to an end. Next month, we are celebrating the LGBTQIA+ community. Our LGBTQIA+ community has organised a display, some books and activities. We are looking forward to a month of harmony, acceptance and understanding of this beautiful community.

OVERDUE LIBRARY BOOKS/DVDs

Can you please encourage your son/daughter to return any overdue library books/DVDs as soon as possible to avoid possible behaviour points. If you have any issues, please email: s.blay@collingwood.surrey.sch.uk

From both of us in the library, we wish you a nice week and hope you enjoy the new format of newsletter, designed by one of our DoE volunteers. Keep on reading!

Mrs Teissonniere and Ms Blay – Library Co-Managers

MISDIRECTION

This is when you lead an audience to expect one thing, and surprise them with an unexpected ending.

Drama Room Changes

Kingston Theatre will be used for mock exams for the next couple of weeks, students should check Edulink each day for messages from their Drama teacher that shows any room changes.

Meet... Jonathan Sayer

Jonathan is an Olivier award-winning writer and a director of all Mischief companies working as a writer, actor and producer. Jonathon co-founded Mischief Theatre when he trained at the Drama school, LAMDA.

Jonathan is mostly known for playing the role of Dennis in The Play That Goes Wrong & Peter Pan Goes Wrong, a character who gets everything wrong, from forgetting lines of dialogue to mis-pronouncing words!

We were delighted to meet Jonathan at a performance of Magic Goes Wrong, where he chatted to students about his work and was pleased to hear that as a college, we use Mischief Theatre as practitioner to inspire student work.

Maths After College Revision Topics 2021-22

(General Revision run every Monday in G9 with Mrs Vassallo)

Date	Topic	Foundation Grade 1-4/5 Mrs Walker – G24	Intermediate Grade 4-6 Mrs Murphy – G26	Higher Grade 7-9 Miss Taylor – G10
Autumn Term				
20 th September	Fractions	4 operations with fractions	4 operations with Mixed Fractions	Algebraic Fractions
27 th September	Decimals	FDP Conversion	FDP Conversion (worded questions)	Recurring Decimals
4 th October	Percentages	Percentages of amounts, increasing and decreasing	Multipliers, reverse, compound	Growth and Decay
11 th October	Compound Measure	Speed Distance Time	Density Mass Volume	Pressure and Density Problems
18 th October	Types of Number	Squares, square roots, cubes, primes, LCM, HCF	Surds	Rationalising the Denominator
Half Term				
1 st November	Ratio & Proportion	Using ratio and solving simple problems	Best Buys, ratios in the form 1:n	Similar Shapes, Solving complex problems
8 th November	Area	Area and perimeter of shapes	Volume and Surface Area	Frustums
15 th November	Factorising & Solving	Linear expressions and equations	Quadratics, Completing the square	Quadratic Formula, Completing the square where $a \neq 1$
22 nd November	Mocks	General Revision (Grade 1-4/5)	General Revision (Grade 4-6)	General Revision (Grade 7-9)
29th November - INSET DAY				
6 th December	Graphs	Linear Graphs ($y = mx + c$)	Parallel and Perpendicular Lines	Quadratic Graphs
13 th December	Averages	MMMR for Raw Data and Frequency Tables (ungrouped)	MMMR from Grouped data	<i>Functions</i>
Christmas Holidays				
Spring Term				
10 th January	Indices	Index notation and Index Laws	Calculations with Indices	Zero, negative and fractional indices
17 th January	Standard form	Powers of 10 and Standard Form	Calculations with Standard Form	Problems with Standard Form
24 th January	Sequences	Types of sequences and nth term (linear only)	Nth term	Nth term (linear and quadratic)
31 st January	Transformations	TERR	Negative and fractional Enlargements	Graphical transformations
7 th February	Mocks	General Revision (Grade 1-4/5)	General Revision (Grade 4-6)	General Revision (Grade 7-9)
Half Term				
21st February - INSET Day				
28 th February	Trigonometry	Pythagoras and SOHCAHTOA	3D Pythagoras and Trigonometry	Sine and Cosine
7 th March	Simultaneous equations	Solving simple simultaneous equations	Real-life situations and finding the equation of a straight line	Simultaneous equations with quadratic equations
14 th March	Inequalities	Solving simple inequalities	Solving inequalities	Quadratic inequalities and Graphical inequalities
21 st March	Probability	Venn Diagrams and Tree Diagrams	Non-conditional and Conditional events	Set Notation and Mutually Exclusive events
28 th March	Circles	Circle area and circumference	Sector area and arc length	Circle theorems
Easter Holidays				
Summer Term				
25 th April	Graphs	Pie Charts, Scatter Graphs and Stem and Leaf	Cumulative Frequency and Histograms	Area under a curve
2nd May - Bank Holiday				
9 th May	Vectors	Bearings and simple vectors	Calculations with vectors and finding the resultant	Proof (parallel/colinear lines, geometric proofs)
16 th May	Exams	Paper 1 Revision	Paper 1 Revision	Paper 1 Revision
23 rd May	Exams	Paper 2 Revision	Paper 2 Revision	Paper 2 Revision
30 th May	Exams	Paper 3 Revision	Paper 3 revision	Paper 3 revision

CAREERS NEWSLETTER

This newsletter is a collation of all the opportunities we have heard about from employers and universities.

Please use the links included to read more information and apply to anything you are interested in.

Links are underlined.

Remember, you can use Unifrog and Career Pilot any time to research your career options, take part in quizzes and see which jobs might suit you.

OPPORTUNITIES

Rolls Royce have now opened their **Higher and Degree Apprenticeships**. They cover Commercial, Engineering, Materials Laboratory, Procurement, Supply Chain Management, Digital/Technology, Manufacturing, Non Destructive Testing and Project Management. You can read more and apply here.

The deadline to apply for PwC's **Flying Start Programmes** in either Accounting or Technology is fast approaching. This is their degree programme of study. The deadline is 26th January 2022.

How does some work experience at Europe's biggest bank sound? If you're interested in a career in financial services, young professionals next virtual event with HSBC is something you're going to want to come along to. On Monday 24th January from 5:00pm - 6:00pm, they will be hosting HSBC's introductory work experience session as they take us through all their upcoming UK-wide summer work experience opportunities and how to best ensure your application can stand out and align to what they're looking for. You can register here.

Historic England is pleased to offer a **virtual work experience programme a twice per year**. The three-day programme includes live content, talks from guest speakers and the opportunity to contribute to some of our work as we champion historic places to help people understand, value and care for them. All delegates will receive a certificate of completion of their work experience at Historic England at the end of the programme. The 2022 event will take place over three days and runs from Wednesday 23 February to Friday 25 February. Read more and book a place here.

JOB OF THE WEEK

Dental Nurse

Dental nurses help dentists to treat their patients and do reception work and other tasks in the practice. You can earn up to £30,615 per year and expect to work around 37-40 hours per week. There will be 8% more Dental Nurse jobs by 2026.

You can read more about this here.

LABOUR MARKET INFORMATION FACT

The World Economic Forum predicts that AI and automation will lead to the creation of 97 million new jobs by 2025.

However, people working in many existing jobs will also find their roles changing, as they are increasingly expected to develop their own abilities with AI technology.

Read more 2022 workplace predictions here.

If you have any questions or need support, please email careers@collingwood.surrey.sch.uk

CAREERS NEWSLETTER

OPPORTUNITIES

St James's Place are running an Apprenticeship Open Evening on Tuesday 8th February from 430-6pm via Zoom. You can read more and register [here](#). Their apprenticeship programme will then open for applications on 25th March 2022.

EDT Industrial Cadets are a series of support inputs for students. Read about their offer for each year group below:

Year 9: A series of online courses unlock innovative thinking, improve independent learning, presentation and planning skills, boost confidence and enhance students' CVs. The knowledge and exposure gained will help them make more informed decisions about their future and for their UCAS application. Apply [here](#).

Industrial
Cadets

Year 11: Virtual Routes into STEM course offers an opportunity to explore college, university and apprenticeship routes, tour a variety of institutions virtually, work on exciting projects and have access to live career sessions and mentor panels with STEM employers. If you are enjoying your Tech, Design, Maths or Science subjects and would like to know what exciting future these subjects could lead to, then this course will help you discovering where your interests could take you. Apply [here](#).

EDT

Year 12: Insight into University residential courses run over 4 or 5 days where students get a taster of university life and an insight into a specific STEM subject. In summer 2022 these will include

- Maths at Lancaster University
- Materials Science at University of Cambridge
- Mechanical Engineering at UCL
- Robotics & Autonomous Systems at University of Liverpool
- Broad-based Engineering at University of Sheffield

Apply [here](#).

The Science Technology Research Council are running an Apprenticeship Evening on Thursday 10th Feb from 6-7pm. You will learn about their work, facilities and apprenticeship programmes. Book your place [here](#).

EMPLOYER SPOTLIGHT

British Airways

"At British Airways, we take huge pride in our past – but we're looking to the future as an airline that loves embracing the best of modern Britain. Our country's creativity, diversity, style, wit and warmth are the same special qualities that make us who we are. Now, we're looking to build on this spirit and passion to make tomorrow even better."

UNI SPOTLIGHT

Edge Hill University

"We have been crowned the Modern University of the Year in The Times and Sunday Times Good University Guide 2022. The prestigious award highlights the University's continuous investment in the student experience, its quality of teaching, outstanding facilities and courses that are designed to meet the needs of employers in a competitive jobs market."
