What is A Level Business?

This is a 2 year course which lays an appropriate foundation for further study of Business in higher education. Equally the material studied would be useful for students intending to pursue careers in any area of business.

Students are introduced to business in Themes 1 and 2 through building knowledge of core business concepts and applying them to business contexts to develop a broad understanding of how businesses work.

Breadth and depth of knowledge and understanding, with applications to a wider range of contexts and more complex business information, are developed in Themes 3 and 4, requiring students to take a more strategic view of business opportunities and issues.

This course is designed to:

- develop an enthusiasm for studying business
- gain an holistic understanding of business
- develop a critical understanding of organisations and their ability to meet society's needs and wants
- understand that business behaviour can be studied from a range of perspectives
- generate enterprising and creative approaches to business opportunities, problems and issues
- be aware of the ethical dilemmas and responsibilities faced by organisations and individuals
- acquire a range of relevant business skills
- apply numerical skills in a range of business contexts
