

Department: Citizenship

Mr Magness
Head of Department

Mrs Ospina
Head of KS3
Citizenship

What will you study in Year 7?

You will learn about how Britain came to be the democracy it is today in terms of how laws are made and who has power to influence these laws. You will also debate issues that people tend to disagree about so that you can practice debating.

How do you become a brilliant Citizenship student?

You should watch the news a couple of times a week and try to read a newspaper so that you know what is going on in the news.

What skills will you learn in Citizenship?

You will learn how to connect knowledge to sources. You will also learn how to appreciate how people with different viewpoints can have different opinions on the same thing!

What we think about Citizenship?

It is for students that one day want to make the rules and not just follow them! Great for lawyers, politicians and anyone perhaps wanting to join the police.

What Home Learning will you get?

Home Learning is issued fortnightly. Home Learning varies and can be based on revising what we have done in class or extending what you have learnt through wider reading/watching.

Where is Citizenship taught at Collingwood?

Citizenship is taught in the Barossa Building.
