

Geography Summer Challenge

Instructions

- Follow the steps below to take part in this fantastic challenge:

1. **Choose ten challenges** from the options below and record them on your Geography Summer Challenge Sheet

2. Complete each challenge (remember to tick it off on your planning sheet) and record your evidence.

3. Compile all your evidence (make sure it is clear what challenges you completed) and submit it by **Friday 5th September**. You can either send your evidence in by email to Year6Questions@collingwood.surrey.sch.uk or bring it in on paper clearly marked Geography Challenge with your name on it and hand it to Barossa reception.

You must have a piece of evidence for each of your 10 challenges

Once your Geography Summer Challenge has been handed in, we will choose the top three projects. Praise Points will be issued to all students that complete the challenge and prizes given to the top three projects

Geography Summer Challenge

1. Squish It – Take a photograph of you squishing a physical feature between your thumb and forefinger.

2. Landmark – Create a famous landmark out of food.

3. Tweet – Complete a bird count in the park or garden. The RSPB has a great [guide to identifying a bird](#).

4. Get Out – Take a nature walk in 3 different places. Record the nature you see.

5. Mapimal – Map an animal – ‘Draw’ an animal using Google [GPS art guide](#) to find out how to do this.

6. Meme – Create a geography meme.

7. Country – Learn about a country you know nothing about.

8. Leaf – Find five different leaves and use them to create some artwork.

9. Montage – Create a photo montage for your local area/street/holiday destination.

10. Pebble – Paint a pebble and leave it somewhere outside for someone to find.

11. Trees are good 1 – Map the trees in your street/local area

12. Bucket List – Write a bucket list of all the places you would like to visit. Give a reason for each.

13. Sustainable living – Re-design your house for more sustainable living.

14. Sketch it – Read a book and draw/sketch a place that is described.

15. Geocaching – Try out geocaching. Have a look at our [quick Geocaching guide](#).

Geography Summer Challenge

16. Treasure Island – Hide something for a friend in your local area and create a map/challenge for them to find it.

17. Weather – Keep a weather diary for 7 days. The Met Office has a great, free [weather diary template](#).

18. Cloud challenge – Identify 5 clouds and take pictures of each one. The Met Office has [a great guide to cloud types](#).

19. Field sketch – Create a field sketch of a location that is important to you. Check out our [guide to field sketching](#).

20. Footprint – Calculate your carbon footprint. The WWF has a great [carbon footprint calculator](#) you can use.

21. Plastic – Monitor your household's single-use plastic use for a week. Plan ways to reduce your plastic use.

22. Globalisation – Create a collage of images to illustrate the theme of globalisation.

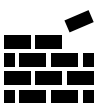

23. My Maps – Create a Google My Map. You could map your favourite places or locations you have studied in geography. [Take a look at our guide on how to create a Google My Map](#).

24. Pick It – Do a litter pick in your local area (make sure you take appropriate caution when picking litter and wash your hands afterwards!).

25. Get crafty – Create a famous location/feature using Minecraft.

26. OS Map – Create a route using an OS map. Describe the route using only directions, grid references and symbols. You can access OS maps for free using Bing Maps. [We've got a guide to this here](#).

27. Watch It – Watch a geographical documentary and produce a summary of it. You could produce an infographic, notes or poster. [Dual coding is a great way to present information](#)..

Planning Sheet: Use this to write down the 10 challenges you are going to complete. Tick them off once you have done them.
REMEMBER you still need to send in the evidence of each challenge you complete
